## DESCRIPTION

*London, 1815.*

*Leela Choudhury refuses to be silent.*

From a hidden alley in Nightingale Court, she runs The Nightingale, an underground bookshop that trades in forbidden texts, political pamphlets, and stories society insists women should never read. When a scandalous serialized romance known as The Pirate's Promise ignites demand across Mayfield, Leela suspects its anonymous female author is not who she claims to be.

She's right.

Viscount Sebastian Toussaint—wealthy aristocrat, favorite of the Crown, and the last man Leela ever expected to trust—is the mind behind the novel that has women whispering, dreaming, and daring to want more. Bound together by secrecy and a shared love of literature, Leela helps Sebastian discreetly distribute his work chapter by chapter, even as the Crown and a powerful bookseller close in.

As censorship tightens and reputations unravel, Leela and Sebastian must decide whether stories can truly change the world, and whether love can survive when everything else is at risk.

In a society determined to control women's voices, one book may prove impossible to silence.

## DESCRIPTION

Savanna Davis thought that night in August six years ago—and Dalton Hayes—were nothing more than memories that haunted her dreams. He was her childhood crush, her brother's best friend, and the one man who walked away without warning, leaving her to raise their secret alone.

Now, years later, Savanna's blast from her painful past is back in town visiting from the military—moody, guarded, and dare she say looking incredibly delicious? Tempted by the one guy she never stopped thinking about, Savanna must make a choice: keep her distance and her secret away from him? Or reveal the truth while reaping the benefits? Because now that she's older, she knows better than to get attached—it's all just temporary, anyway.

Dalton Hayes has never stopped thinking about Savanna Davis—or that one passion-filled night they spent together on the beach the night before he left for the military. Now, six years later, he's reluctantly back home in his hometown—the one place he's avoided like the plague.

But when Dalton comes face-to-face with the smoking hot blonde he's tried so desperately to steer clear of—it's obvious the feelings he's tried to suppress come roaring back. When Dalton realizes Savanna is a single mom—to a spunky, familiar, blue-eyed little girl—and isn't happily settled like he originally believed, the narrative of the last few years gets completely flipped upside down.

Now with a second chance, what Dalton wants with Savanna is permanent.

The only thing he has to do is convince her he'll stay.

## DESCRIPTION

*Time drove them apart. Every road they took brought them back.*

Emily Callahan is officially out of options.

A career-ending act of self-defense against her predatory boss has left her with nothing left but her father's headstone and a mounting pile of legal expenses. With nowhere left to turn, a figure from her past leads her back to the only place she ever felt safe: the sprawling Yellow Bell Ranch, a place she hasn't set foot in for twenty-three years.

But the ranch isn't the peaceful sanctuary she remembers. At its heart is Wyatt Miller—hardened by life, haunted by grief, and determined to keep his former childhood friend at arm's length. To him, Emily is a liability and a painful reminder of a life he didn't get to lead. To his ten-year-old son, she's the first breath of fresh air the ranch has seen in years.

While the town sees Wyatt as the devoted grieving widower, his rugged exterior hides an erosive secret about the day his wife died—a lie he's maintained for four years to protect his son. Emily sees right through his fortress, but she's a distraction Wyatt can't afford, especially when his simmering desire for her feels like the ultimate betrayal.

As the ranch faces a threat that could destroy the Miler family forever, Emily uses her selfless brilliance to fight back. Wyatt is forced to a crossroads: will he continue to hide behind his walls, or will they fight for each other and save the only home they both have left?

## DESCRIPTION

*Welcome to GHOSTED! The dating app for our underground side of the world. Allow us to fulfill all your haunting desires. Who knows what you might attract.*

Arya Livingston has been ghosted one too many times, and the latest ghosting hurt the most. She's too much, too clingy, too odd for love—or at least that's what she believes. That is, until she stumbles upon a buzzy new dating app, GHOSTED, and matches with the only guy who actually has a photo: Maverick Forrester. But there's something off about him. He's not like other guys—he refuses to even answer a simple FaceTime call.

When Arya's biological mom mysteriously goes missing during an alumni talk on campus, and Arya discovers she's a legacy of the top sorority, Phantom Kappa Nu, it ignites a fire in her to become an official sorority sister. But there's one problem—due to a string of campus disappearances and supernatural activity, a new rule has been implemented this year: all pledges require a partner for initiation week (for safety, of course).

With no other prospects, Arya accepts Maverick's offer to be her partner. But he turns out to be a rather ominous challenge. He's not exactly human or even alive. And as initiation week forces them closer together, it becomes harder to deny their growing feelings. They both begin to question whether their relationship is even possible... or if they're simply on borrowed time.

### DESCRIPTION

*The hardest thing about falling for someone isn't the fall—it's trusting they'll be there when you land.*

#### COLT JAMES

He stopped believing in second chances a long time ago. The ranch keeps him busy, the silence keeps him sane, and his walls keep everyone else at a comfortable distance. That's worked fine for years. Then a woman with scared eyes and a seven-year-old daughter arrives in Wildflower Valley, and suddenly nothing feels as settled as it did before.

#### MIA BENNETT

She didn't come to Wildflower Valley to fall for anyone. She came to disappear. To breathe. To figure out who she is when nobody's watching. The last thing she needs is a gruff, guarded cowboy with a family who welcomes her like she's always belonged, one who sees straight through every wall she's built and makes her feel safer than she's ever felt in her life.

She swore she wouldn't get attached. She definitely wasn't supposed to fall for him.

But when the past catches up, she'll have to decide if this makeshift family is worth standing her ground for...or if loving them is too dangerous.
